

Introduction to Cyberpreneurship

- ▶ Combines 'cyber' (digital/online) and 'entrepreneurship' (business creation). It is the modern form of entrepreneurship conducted online.
- ▶ Examples are YouTubers, online fashion vendors, web developers, app creators.
- ▶ It enables anyone with Internet access to start a business with minimal capital.

Key Features of Cyberpreneurship

- ▶ Reliance on digital platforms (websites, apps, social media).
- ▶ Low start-up cost and minimal infrastructure.
- ▶ Global reach and flexibility in business operations.
- ▶ Innovation-driven, with tools like AI chatbots and analytics.

Creativity and Innovation

- ▶ Creativity: Generating new and original ideas.
- ▶ Innovation: Turning creative ideas into practical products.
- ▶ Example: Student builds an app to reduce food waste → innovation.
- ▶ Creativity fuels innovation and drives business growth.

Importance of Cyberpreneurship

- ▶ Promotes job creation and economic empowerment.
- ▶ Encourages technological innovation.
- ▶ Enhances financial inclusion via digital payments.
- ▶ Increases global competitiveness and scalability.

Challenges of Cyberpreneurship

- ▶ Cybersecurity threats: hacking, phishing, data theft.
- ▶ Infrastructure issues: poor power supply, unreliable Internet.
- ▶ Regulatory uncertainty: unclear taxation and digital policies.
- ▶ Need for strong cybersecurity and supportive regulations.

Commercialization in Cyberpreneurship

- ▶ Turning ideas into marketable products/services.
- ▶ Stages: Idea generation, Prototype development, Testing & validation, Product launch, Scaling & growth.
- ▶ Example: Student's AI tutoring app becomes national platform.

Entrepreneurship Management and Business Planning

- ▶ Managing business through planning, organizing, leading, and control.
- ▶ Traits of successful entrepreneurs: vision, creativity, risk-taking, persistence.
- ▶ Examples: Jeff Bezos (Amazon), Jason Njoku (iROKOtv), Paystack founders.

Steps in Starting a New Business

- ▶ Identify an opportunity.
- ▶ Develop and refine idea.
- ▶ Conduct feasibility study.
- ▶ Prepare business plan.
- ▶ Mobilize resources.
- ▶ Implement & market.
- ▶ Grow and expand.

Strategic and Risk Management

- ▶ Strategic management: long-term planning and execution.
- ▶ Types of risk: Financial, Cyber, Market, Legal.
- ▶ Mitigation: cybersecurity, research, compliance, and planning.

Business Plan Development

- ▶ This is a roadmap outlining business vision, goals, and strategies.
- ▶ It includes Executive summary, Market analysis, Product/service description, Marketing & financial plans.
- ▶ It attracts investors, guide growth, and track progress.

Market Research and Feasibility Study

- ▶ Feasibility study: evaluates viability (technical, financial, legal).
- ▶ Market research: analyzes customers, competitors, trends.
- ▶ Tools: Google Trends, surveys, focus groups.
- ▶ Helps refine products and marketing strategy.

Financing the Business

- ▶ Sources of funding:
 - ▶ Personal savings,
 - ▶ Angel investors,
 - ▶ Venture capital,
 - ▶ Crowdfunding,
 - ▶ Bank loans.

Marketing, Pricing and Promotion

- ▶ Digital marketing via social media, SEO, influencers.
- ▶ Pricing models: penetration, freemium, value-based.
- ▶ Promotion tools: discounts, referrals, loyalty programs.
- ▶ Example: Spotify's freemium model drives global success.

Case Studies in Cyberpreneurship

- ▶ Global: Bill Gates (Microsoft), Larry Page & Sergey Brin (Google).
- ▶ Nigerian: Jason Njoku (iROKOfv), Sim Shagaya (Konga), Tayo Oviosu (Paga).
- ▶ Innovation + strategy = sustainable success.

Government Support and Policy Initiatives

- ▶ Agencies and programs: SMEDAN, Bank of Industry, NITDA, Tony Elumelu Foundation, Nigeria Startup Act.
- ▶ They empower entrepreneurs and build digital economy.
